Trans Mountain Notice

Pipeline Maintenance

Trans Mountain will be conducting maintenance activities as part of its ongoing pipeline integrity program on a segment of the pipeline from Kamloops Station to Sumas Pump Station in Abbotsford, BC. Work activities are scheduled to be completed during the week of May 25, 2026.

Work will typically occur from 7 am to 7 pm. Some work may extend beyond these hours due to unanticipated schedule changes or environmental conditions.

Up to one week prior to the start of work activities, crews will place small, above-ground sensors along the pipeline route (about every 2 km) to track equipment. These sensors stay in place for 24–48 hours. This work is non-intrusive, but you may notice parked vehicles, foot traffic, or occasional machinery accessing the route. Crews may also return briefly in the following week.

You may also notice increased activity, including mobilization of equipment, intermittent noise, odours and directed lighting near the work areas for worker safety. Odours are unlikely, but should they occur, they will be temporary and their dispersal will be weather-dependent. **To report unusual noise or odour, please call 1.888.876.6711 immediately.** Trans Mountain thoroughly investigates and follows up on all reports.

We appreciate your patience as we complete our maintenance activities in a safe and timely manner, with as little disturbance as possible to our neighbours. All work is conducted in compliance with applicable environmental regulations and requirements.

Dates and time are subject to change pending necessary approvals and permits.

TO REPORT A PIPELINE EMERGENCY, ODOURS OR NOISE, CALL 1.888.876.6711 IMMEDIATELY.
