ADDITIONAL INFORMATION

Why are you looking for someone else mid-season?

There is a gatehouse, which is in effect for a portion of the year, which opens and closes the gate. This contract is for gate opening and closing outside of this contract. Gate service are required last Sunday in September to the last Monday in June.

Has there ever been issues accessing the gate?

There has been in the past with a freshet. In this case we would work with the contractor around opening/closing expectations.

Is there flexibility in time for opening/closing the gate?

There could be some flexibility within approx. 15 minutes as long as it's not taking access away from the public.

When would the contract start?

We are hoping for the contract to start in April 2021.

Are google maps images of the site accurate?

Yes.
