Fraser Valley Regional District

RFSO-26001- Civil Contractor Services

Addendum No. 2

Proponent Questions:

Question 1: Will the FVRD accept comparable projects completed by members of the proponent team while working for past employers?

FVRD will accept comparable civil construction projects completed by Proponent's principals while employed by previous contractors, provided the experience is clearly and accurately presented as individual experience and is relevant to the requirements of the RFSO.

For each project submitted, please identify:

- The previous employer;
- Project name, location, and completion date;
- Project scope and approximate value, where requested;
- The specific role and responsibilities performed by principals
- The extent of your direct involvement in supervising or delivering the work; and
- A reference who can verify the project and your individual responsibilities.

Please do not represent this experience as work contracted or completed by the proponent where that was not the case. FVRD will assess the submission against the experience and reference requirements.

Question 2: On the rates form under monthly and weekly columns, $/hr is listed. Is this correct?

No, an error was identified in the unit labels for the weekly, and monthly rate columns in Schedule A – Rates.

The intended pricing units are:

- **Hourly Rate:** per hour (**/hr**)
- **Daily Rate:** per day (/**day**)
- **Weekly Rate:** per week (**/wk**)
- **Monthly Rate:** per month (**/mth**)

Proponents are to submit rates using the applicable unit of measure above. All other requirements of the procurement documents remain unchanged.
